

CompCancer Colloquium 2024

Marc Abrahams

The IgNobel Prize
and the Annals of
Improbable Research

Marc founded the Ig Nobel Prize Ceremony in 1991, and serves as master of ceremonies.

The prizes — for achievements that make people LAUGH, then THINK — are handed out by genuine, bemused Nobel laureates in a gala event held every year at Harvard University

He co-founded and edits the magazine Annals of Improbable Research (AIR), and has written "This is Improbable", "The Ig Nobel Prizes", and other books.

📍
HU Campus Nord
Philippstr. 13
House 18
Lecture Hall 2

**Wednesday
April 3rd
at 4 pm**
